REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

Claims 1-4 are apparatus claims that set forth a wafer alignment mark with a first mark, a second mark, a concave part formed between these marks and detecting a zeroth order diffract light reflected from a sloped surface. These limitations along with the further limitations set forth in claim 1 are neither suggested nor shown by the art of record. Claims 2-4 are all dependent on claim 1 and are thus allowable. Claims 5-7 are method claims that set forth a *specific* set of steps for fabricating alignment marks on a wafer. The steps as set forth in claim 5 are neither suggested nor shown by the art of record. Claims 6 and 7 are dependent on claim 5 and are thus allowable as well.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

2. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
